

Gardens, Gardeners and Landscapes

Garden history and landscape history overlap to an enormous extent, and both developed as disciplines largely through study of the literary representation of landscape especially in the eighteenth century. The literature today can cover everything from planting, to produce, architecture, aesthetics, ecology, and the politics of land ownership.

This section should be read in conjunction with the bibliography on Estates.

Specialist journals, often with detailed studies of individual places, include:

Agricultural History Review

Country Life

Georgian Group Journal

Journal of Garden History

Landscape Journal

New Arcadians Journal

Rural History

Studies in the History of Gardens and Designed Landscapes
